DETAILED ACTION

1. Receipt is acknowledged of the response filed on 09 June 2004, which has been entered in the file.

Allowable Subject Matter

2. Claims 12-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Although, the best prior art to Peters et al [US 4,661,806] taken alone or combination, teaches a storage system having a plurality of objects associated with an identification device, they fail to specifically teach or fairly suggest that a storage system comprising the serial transmission of the individualized code is generated between the first and second connections and that the transmission is initiated by signal across the same two connections and the serial transmissions originate from the first connection and are initiated by signals on the same connection as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
